

NAVITAS

Accelerating Green City development with integrated data centers
Delivering renewable, cheaper heat and faster installation of local solar and wind

Datacenter heat recovery

Liquid immersion combined with heat pumps

Opdaterede tal

Electric demand 1.3MW 8.765,8 hours/year **11.394,5 MWh**

Heat 1.3 MWh heat delivered all year **11.394,5 MWh**

Lean organisation

NAVITAS DC Project Manager

Kasper Sivebæk
Navitas CEO

15 years of business development, sales, marketing and start-up experience. Founder of Wavemakers Media ApS.
4 year Green Start Up experience, renewable energy investment analyst. Helped start a battery company.

4 years ago Navitas concept started
3 years working with Green City Development (Vinge Nord mv)
Last year battery grid services +
Navitas Green City integration

Key Danish Partners

Martin Mortensen
Kølegruppen ØST

Martin lead Novo Nordisk's *Major investment strategy* - 4 production buildings cooling system, 20 years plan, a +100 mio. Kr. project with Emil. They also created Herlev hospital's cooling strategy, a similar system will be utilized for Navitas immersion cooling. .

Emil Sivebæk
Kølegruppen ØST Director

<Kølegruppen is a Danish heat pump company - Started: 1973 - 60 people in 3 offices
18 years experience with heat pumps and cooling data centers. NIRAS 4 years (Novo Nordisk, 8 MW heat pump Roskilde)

Investors (Skal endeligt bekræftes, business casen skal være på plads)

Fares Makni
